

Using HP-SSH

Chris Wong

Technical Consultant
Cerius Technology Group, Inc.

The history of SSH

- Protocols developed for encrypting network traffic developed in 1995 by Tatu Ylönen
- Released in July 1995 to the public
- SSH Communications Security (SCS) founded in December 1995
- SSH-2 released in 1996 by SCS
- 1998 SCS releases SSH-2 based on IETF SSH-2 protocol (Feb. 1997). Commercial product, free only to non-profits & edu. Others continued to use SSH-1
- 2000 SCS extends free use to Linux, NetBSD, FreeBSD, and OpenBSD
