# *hp-ux 11i operating environments enterprise release*

# contents

- 3** hp-ux 11i operating environment benefits
- 4** getting to know operating environments
- 5** hp-ux 11i oe design overview
- 6** getting to know: hp-ux 11i core functionality
- 7** getting to know: 11i (B.11.11) operating system features
- 8** getting to know: HPUXBaseAux
- 9** getting to know: always-installed network drivers
- 10** getting to know: the foundation for all oes
- 11** getting to know: the 'internet grouping' of software
- 12** getting to know: customer selectable sw/commercial server oes
- 13** getting to know: the hp-ux 11i operating environment
- 14** getting to know: the 'enterprise grouping' of software
- 15** getting to know: the hp-ux 11i enterprise oe
- 16** getting to know: the 'mission critical grouping' of software
- 17** getting to know: the hp-ux 11i mission critical oe
- 18** getting to know: the hp-ux 11i oes for commercial servers
- 19** getting to know: the 'technical computing grouping' of software
- 20** getting to know: customer selectable sw/technical computing oe
- 21** getting to know: the hp-ux 11i technical computing oe
- 22** hp-ux 11i oe content overview
- 23** hp-ux 11i oe content overview (app product numbers/bundle tags)
- 24** hp-ux 11i oe license and media product numbers
- 25** software deployment via media before oes
- 26** software deployment via media with oes
- 27** sales order simplification example
- 28** 11i media solution

- 31** hp-ux 11i oe software bundle names and contents
- 32** install and media for commercial server oes
- 33** install and media for the technical computing oes
- 34** per processor licensing
- 37** hp-ux 11i oe 'at-a-glance' slides
- 41** backup slides
- 42** 11i network, mass storage, and i/o driver content
- 44** B.11.11 release contents o/s and oe specific sw
- 45** B.11.11 release contents application software
- 50** mapping sample for bundled oe software
- 51** glossary of terms

# hp-ux 11i operating environments benefits

## greatly simplified software deployment

- Only one reboot needed to install the Operating Environment (OE) of your choice
- No codewords are necessary to access any of the functionality/application products resident on the OE media
- Comprehensive offering of Network, Mass Storage, and I/O Drivers available during install process
- Online Diagnostics loaded during cold install

## simple to purchase license

- Each OE license product contains licensing for the base HP-UX O/S and all of the included HP applications

## attractive pricing

- Pricing of the OE licenses reflects a built-in advantage over purchasing individual OE components separately

## published testing results

- Testing results of application products in the OEs will be published on docs.hp.com for worldwide access both inside and outside HP

## simple to purchase software support

- Simplification in Software Support ordering and contract administration has been achieved in parallel with the introduction of HP-UX 11i Operating Environments

Copyright ©Hewlett-Packard Company 2000

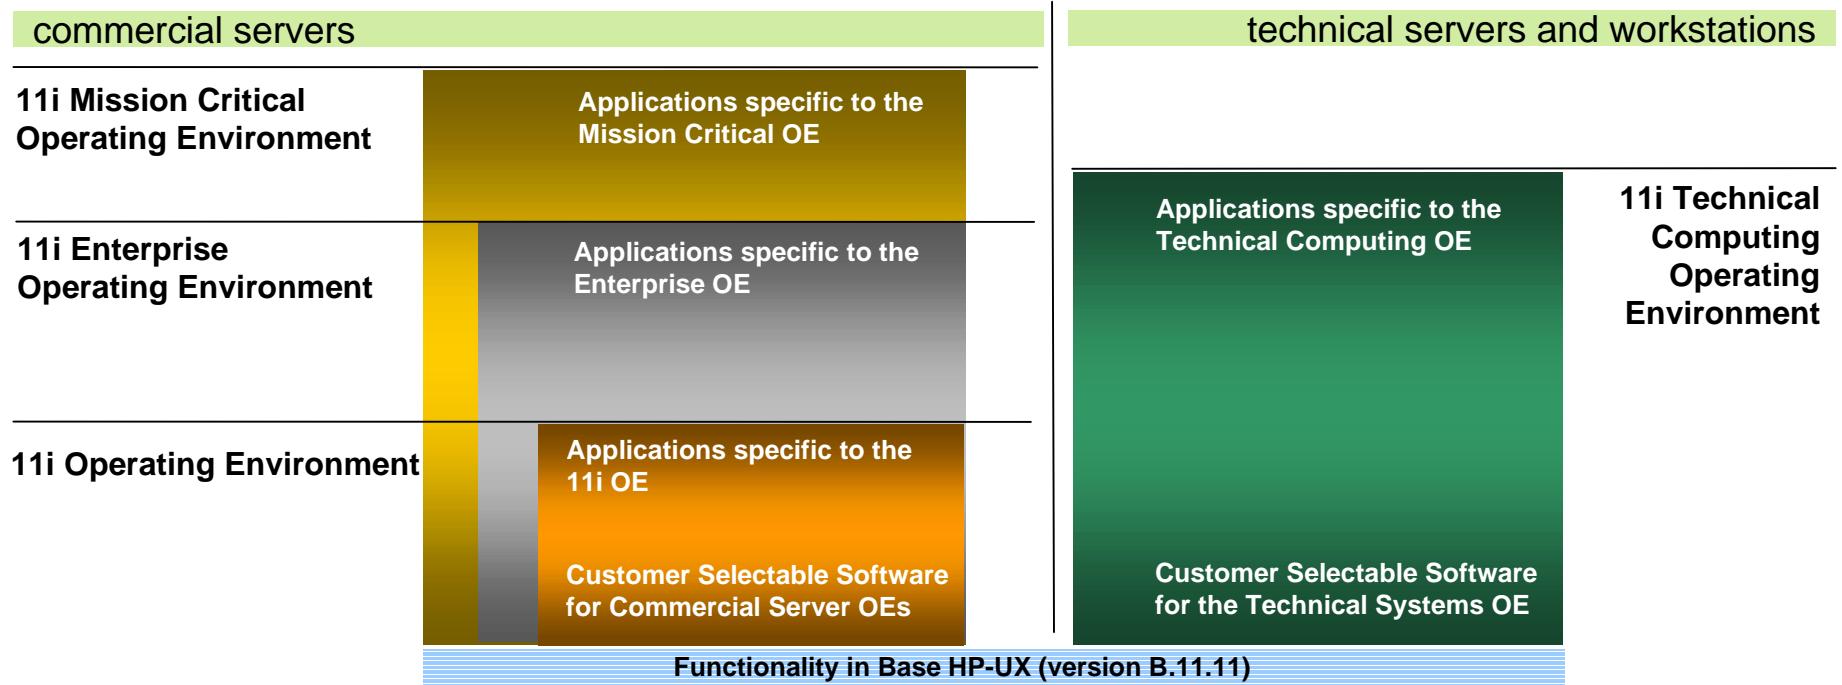

# getting to know hp-ux operating environments

- The following series of slides will show how HP-UX 11i Operating Environments are constructed from pieces of the total 11i Software Solution

# getting to know hp-ux operating environments

## design overview

- Each of the Commercial Server Operating Environment license and media products are designed to be supersets of one another
- The TCOE represents a singular solution for Technical Servers and Workstations
- Base HP-UX and Application content common across all four OEs is synchronized with the same revision level

# getting to know hp-ux operating environments

- HP-UX version B.11.11 is at the heart of each HP-UX 11i Operating Environment and provides the sound foundation onto which each OE Solution is built
- Two global base HP-UX bundles are delivered at B.11.11 and are differentiated by bitness: HPUXBase64 for 64-bit capable hardware, and HPUXBase32 for 32-bit capable hardware

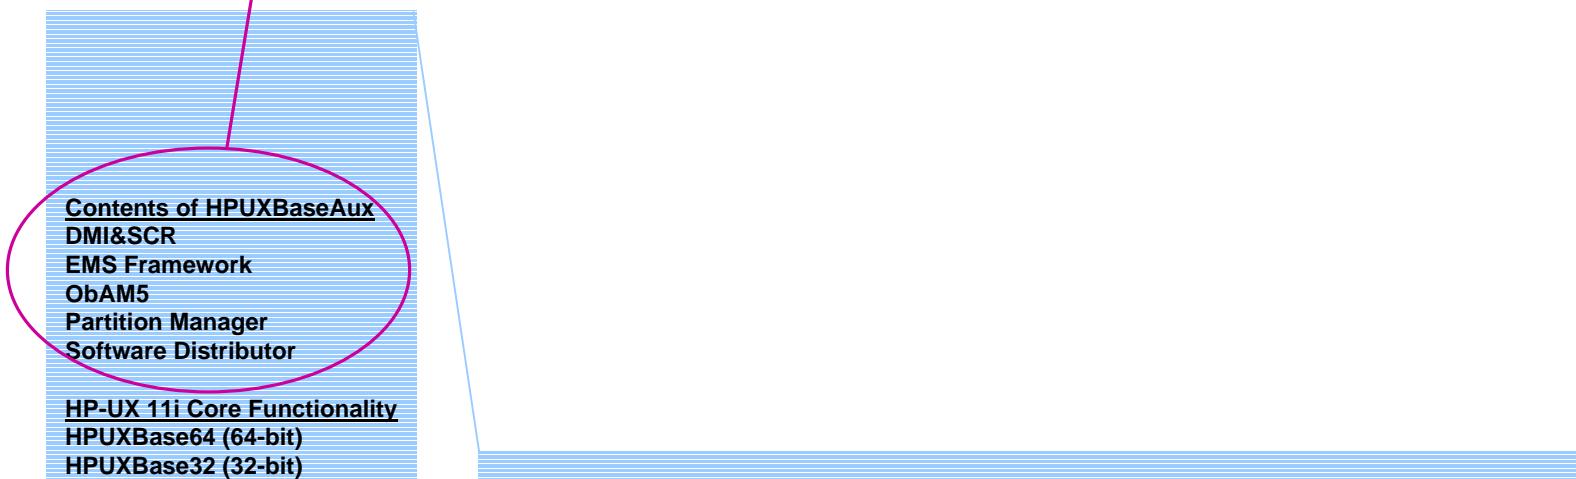

# 11i (B.11.11) operating system features

## major new features of hp-ux 11i (version B.11.11)

- Built-in Unlimited User Level License for HP-UX
- Includes Linux APIs
- Introduces online replacement and addition of I/O cards for N-Class and L-Class servers
- Fully supports the low-end A500 and A400 servers, designed for ISP operation, where performance per rack and serviceability are keys
- Supports L2000 and L1000, an economical N-Class server with an upgrade path to IA-64
- Supports the V2500/V2600 platform
- Offers VERITAS (JFS 3.3) file system support
- Has improved and expanded file system support from CacheFS
- Supports NFS over TCP/IP
- Adds systems management improvements (PRM enhancements)
- Offers secure defaults and intrusion detection
- Has extensive performance tuning for one-way to 32-way configurations

# getting to know hp-ux operating environments

- Functionality complementary to base HP-UX is included in a separately constructed, always-installed bundle called HPUXBaseAux
- For B.11.11, Software Distributor (swdist) moves from “core” to this separate bundle (a primary reason why HPUXBaseAux is always-installed)
- The entire software contents (product.filesets) of the following products are wholly contained within the HPUXBaseAux bundle: DMI & SCR, EMS Framework, ObAM5, Partition Manager, and Software Distributor (swdist)
- The following products are available on the 11i Application Release media:
  - EMS Framework, product B7609BA
  - DMI & SCR, product B6816AA
  - Partition Manager, product B6826AA

# getting to know hp-ux operating environments

- In addition to the drivers already installed with HPUXBase64 (or HPUXBase32), there are four always-installed Network and Mass Storage drivers: Gigabit Ethernet, PCI FDDI, PCI FibreChannel (Tachlite), and SCSI RAID
- The individual SD bundle tags for these drivers appear on the OE media as well as on the system following installation:
  - Gigabit Ethernet, SD bundle tag: GigEther-00
  - PCI FDDI, SD bundle tag: FDDI-00
  - PCI FibreChannel (Tachlite), SD bundle tag: FibrChnl-00
  - SCSI RAID, SD bundle tag: RAID-00
- These four always-installed drivers also appear individually on the 11i Application Release media

Always-Installed NW Drivers  
Gigabit Ethernet (PCI, HSC)  
FDDI (PCI)  
FibreChannel [Tachlite] (PCI)  
SCSI RAID (PCI)

Contents of HPUXBaseAux  
DMI&SCR  
EMS Framework  
ObAM5  
Partition Manager  
Software Distributor

HP-UX 11i Core Functionality  
HPUXBase64 (64-bit)  
HPUXBase32 (32-bit)

# getting to know hp-ux operating environments

- HP-UX 11i Core Functionality (HPUXBase64, HPUXBase32), HPUXBaseAux, Gigabit Ethernet, PCI FDDI, PCI FibreChannel (Tachlite), and SCSI RAID provide the foundation of each of the four Operating Environments

Always-Installed NW Drivers  
Gigabit Ethernet (PCI, HSC)  
FDDI (PCI)  
FibreChannel [Tachlite] (PCI)  
SCSI RAID (PCI)

Contents of HPUXBaseAux  
DMI&SCR  
EMS Framework  
ObAM5  
Partition Manager  
Software Distributor

HP-UX 11i Core Functionality  
HPUXBase64 (64-bit)  
HPUXBase32 (32-bit)

# getting to know hp-ux operating environments

Apache Web Server  
CIFS/9000 Server  
CIFS/9000 Client  
Java JPI  
Java Runtime Env (v1.2)  
Netscape Communicator (v4.75)  
PAM Kerberos  
ServiceControl Manager

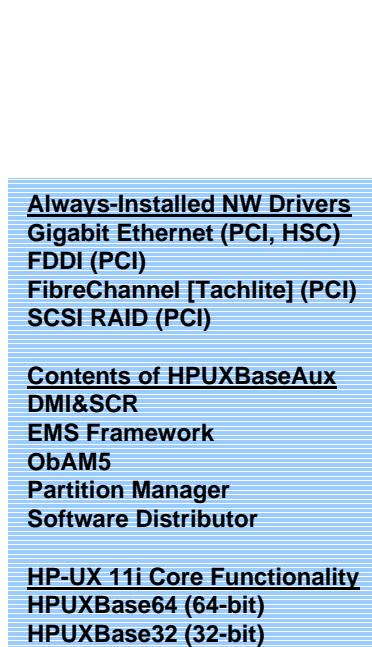

Always-Installed NW Drivers  
Gigabit Ethernet (PCI, HSC)  
FDDI (PCI)

HP-UX 11i Core Functionality  
HPUXBase64 (64-bit)  
HPUXBase32 (32-bit)

- The “Internet Grouping” contains the applications that comprise the HPUX11i-OE software bundle
- The HPUX11i-OE software bundle is installed with the Minimum OE Install selection (optional, HP-recommended)
- The entire software contents (product.filesets) of the following products are wholly contained within the HPUX11i-OE bundle:  
Apache Web Server, CIFS/9000 Server and Client, Java JPI and Java Runtime Environment, Netscape Communicator, PAM Kerberos, and ServiceControl Manager
- Applications in the “Internet Grouping” are individually available on the 11i Application Release media:
  - Apache Web Server, product B9415AA
  - CIFS/9000 Server, product B8725AA
  - CIFS/9000 Client, product B8724AA
  - Java JPI, product B9098AA
  - Java Runtime Env, product B8111AA
  - NS Communicator, product B8342AA
  - PAM Kerberos, product J5849AA
  - ServiceControl Manager, product B8339BA
- Applications in the “Internet Grouping” do not need to be listed separately on the sales order or support contract

# getting to know hp-ux operating environments

**Customer Selectable Software**  
Apache Web Server  
CIFS/9000 Server  
CIFS/9000 Client  
Java JPI  
Java Runtime Env (v1.2)  
Netscape Communicator (v4.75)  
PAM Kerberos  
ServiceControl Manager

**Online Diagnostics**  
100Base-T (HP-PB, EISA)  
ATM (PCI, HSC)  
FDDI (HSC, HP-PB, EISA)  
HyperFabric (PCI, HSC)  
MUX (PCI, EISA)  
TokenRing (PCI, HP-PB, EISA)  
HP-UX Install Utilities 11.11 (IUX)  
iCOD (Instant Capacity on Demand)

- Customer Selectable Software resides on the OE media (CD-ROM pair) and may be chosen by the customer for installation at the same time as the Base OS Install or Minimum OE Install
- Online Diagnostics are always-installed
- The following Customer Selectable Applications are individually available on the 11i Application Release media:
  - 100Base-T/EISA, product 100BaseT-00
  - 100Base-T/HP-PB, product 100BaseT-01
  - ATM/PCI, product ATM-00
  - ATM/HSC-EISA, product ATM-01
  - FDDI/HSC, product FDDI-01
  - FDDI/HP-PB, product FDDI-02
  - FDDI/EISA, product FDDI-03
  - HyperFabric/PCI-HSC, product HyprFabrc-00
  - MUX/PCI, product TermIO-00
  - MUX/EISA, product TermIO-01
  - TokenRing/PCI, product TokenRing-00
  - TokenRing/HP-PB, product TokenRing-01
  - TokenRing/EISA, product TokenRing-02
  - Ignite-UX, product B5725AA
  - Netscape Directory Server, product J4258BA
  - WebQoS Peak Pkg Ed, product J4274AA
- The following software is individually available on the 11i Support Plus media:
  - iCOD, product B9073AA
  - Online Diagnostics, product OnlineDiag
- Applications listed above do not need to be listed separately on the sales order or support contract

# getting to know hp-ux operating environments

## 11i Operating Environment

Always-Installed NW Drivers  
Gigabit Ethernet (PCI, HSC)  
FDDI (PCI)  
FibreChannel [Tachlite] (PCI)  
SCSI RAID (PCI)

Contents of HPUXBaseAux  
DMI&SCR  
EMS Framework  
ObAM5  
Partition Manager  
Software Distributor

HP-UX 11i Core Functionality  
HPUXBase64 (64-bit)  
HPUXBase32 (32-bit)

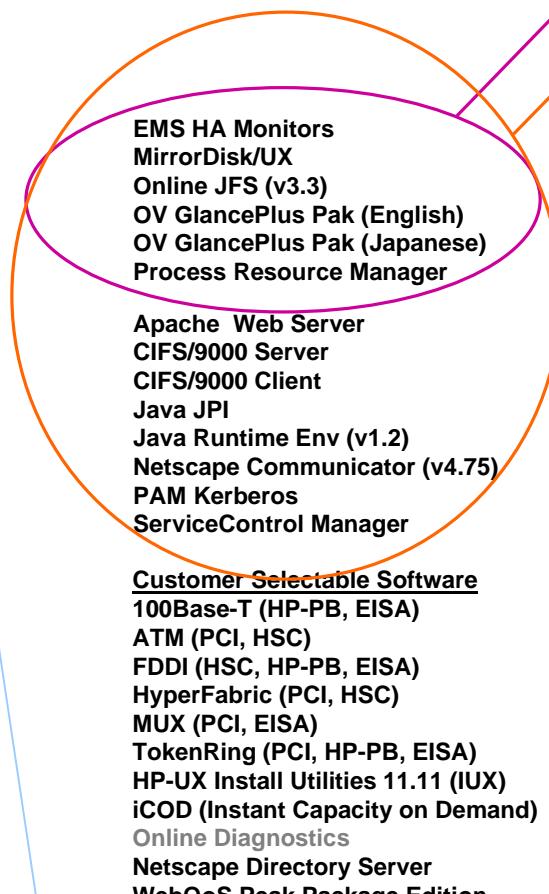

**Apache Web Server**  
**CIFS/9000 Server**  
**CIFS/9000 Client**  
**Java JPI**  
**Java Runtime Env (v1.2)**  
**Netscape Communicator (v4.75)**  
**PAM Kerberos**  
**ServiceControl Manager**

**Customer Selectable Software**  
**100Base-T (HP-PB, EISA)**  
**ATM (PCI, HSC)**  
**FDDI (HSC, HP-PB, EISA)**  
**HyperFabric (PCI, HSC)**  
**MUX (PCI, EISA)**  
**TokenRing (PCI, HP-PB, EISA)**  
**HP-UX Install Utilities 11.11 (IUX)**  
**iCOD (Instant Capacity on Demand)**  
**Online Diagnostics**  
**Netscape Directory Server**  
**WebQoS Peak Package Edition**

- The HP-UX 11i Operating Environment is the base offering for HP9000 Commercial Servers
- The customer may choose either the Base OS Install or Minimum OE Install (recommended) along with the selectable software of their choice
- Installation of or update to 11i requires both OE CD-ROMs or pulling from a depot created from the content of both CD-ROMs

# getting to know hp-ux operating environments

- The “Enterprise Grouping” contains the applications that uniquely identify the Enterprise OE
- The entire software contents (product.filesets) of the following products are wholly contained within the HPUX11i-OE-Ent bundle:  
EMS HA Monitors, MirrorDisk/UX, Online JFS 3.3, OV GlancePlus Pak (English/Japanese), Process Resource Manager, *plus* the entire contents of the HPUX11i-OE bundle
- The HPUX11i-OE-Ent software bundle is installed with the Minimum OE Install selection (optional, HP-recommended)
- Applications in the “Enterprise Grouping” are individually available on the 11i Application Release media:
  - EMS HA Monitors, product B5736DA
  - MirrorDisk/UX, product B2491BA
  - Online JFS 3.3, product B3929CA
  - OV GlancePlus Pak Eng, product B3701AA
  - OV GlancePlus Pak Japn, product B3701AJ
  - Process Resource Manager, product B3835DA
- Applications in the “Enterprise Grouping” do not need to be listed separately on the sales order or support contract (if Enterprise OE LTU purchased)

# getting to know hp-ux operating environments

## 11i Enterprise Operating Environment

Always-Installed NW Drivers  
Gigabit Ethernet (PCI, HSC)  
FDDI (PCI)  
FibreChannel [Tachlite] (PCI)

CIFS/9000 Server  
CIFS/9000 Client  
Java JPI  
Java Runtime Env (v1.2)  
Netscape Communicator (v4.75)  
PAM Kerberos  
ServiceControl Manager

Customer Selectable Software  
100Base-T (HP-PB, EISA)  
ATM (PCI, HSC)  
FDDI (HSC, HP-PB, EISA)  
HyperFabric (PCI, HSC)  
MUX (PCI, EISA)  
TokenRing (PCI, HP-PB, EISA)  
HP-UX Install Utilities 11.11 (IUX)  
iCOD (Instant Capacity on Demand)  
Online Diagnostics  
Netscape Directory Server  
WebQoS Peak Package Edition

- The HP-UX 11i Enterprise Operating Environment is the system management offering for HP9000 Commercial Servers
- The HP-UX 11i Enterprise OE is a superset of the 11i OE
- The customer may choose either the Base OS Install or Minimum OE Install (recommended) along with the selectable software of their choice
- The customer may install either the Enterprise or 11i OE from the Enterprise CD-ROM media
- Installation of or update to 11i requires both OE CD-ROMs or pulling from a depot created from the content of both CD-ROMs

# getting to know hp-ux operating environments

- The “Mission Critical Grouping” contains the applications that uniquely identify the Mission Critical OE
- The entire software contents (product.filesets) of the following products are wholly contained within the HPUX11i-OE-MC bundle:  
ECM Toolkit, MC/ServiceGuard, ServiceGuard NFS, Workload Manager, *plus* the entire contents of the HPUX11i-OE-Ent bundle
- The HPUX11i-OE-MC software bundle is installed with the Minimum OE Install selection (optional, HP-recommended)
- Applications in the “Mission Critical Grouping” are individually available on the 11i Application Release media:
  - ECM Toolkit, product B5139DA
  - MC/ServiceGuard, product B3935DA
  - ServiceGuard NFS, product B5140BA
  - Workload Manager, product B8843CA
- Applications in the “Mission Critical Grouping” do not need to be listed separately on the sales order or support contract (if Mission Critical OE LTU purchased)

# getting to know hp-ux operating environments

## 11i Mission Critical Operating Environment

Always-Installed NW Drivers  
Gigabit Ethernet (PCI, HSC)  
FDDI (PCI)  
FibreChannel [Tachlite] (PCI)  
SCSI RAID (PCI)

Contents of HPUXBaseAux  
DMI&SCR  
EMS Framework  
ObAM5  
Partition Manager  
Software Distributor

HP-UX 11i Core Functionality

iCOD (Instant Capacity on Demand)  
Online Diagnostics  
Netscape Directory Server  
WebQoS Peak Package Edition

- The HP-UX 11i Mission Critical Operating Environment is the high availability offering for HP9000 Commercial Servers
- The HP-UX 11i Mission Critical OE is a superset of the Enterprise and 11i OEs
- The customer may choose either the Base OS Install or Minimum OE Install (recommended) along with the selectable software of their choice
- The customer may install either the Mission Critical, Enterprise, or 11i OE from the Mission Critical CD-ROM media
- Installation of or update to 11i requires both OE CD-ROMs or pulling from a depot created from the content of both CD-ROMs

# getting to know hp-ux operating environments

## commercial servers

### 11i Mission Critical Operating Environment

ECM Toolkit  
MC/ServiceGuard (v11.09)  
ServiceGuard NFS  
Workload Manager

### 11i Enterprise Operating Environment

EMS HA Monitors  
MirrorDisk/UX  
Online JFS (v3.3)  
OV GlancePlus Pak (English)  
OV GlancePlus Pak (Japanese)  
Process Resource Manager

### 11i Operating Environment

Apache Web Server  
CIFS/9000 Server  
CIFS/9000 Client  
Java JPI  
Java Runtime Env (v1.2)  
Netscape Communicator (v4.75)  
PAM Kerberos  
ServiceControl Manager

Always-Installed NW Drivers  
Gigabit Ethernet (PCI, HSC)  
FDDI (PCI)  
FibreChannel [Tachlite] (PCI)  
SCSI RAID (PCI)

Contents of HPUXBaseAux  
DMI&SCR  
EMS Framework  
ObAM5  
Partition Manager  
Software Distributor

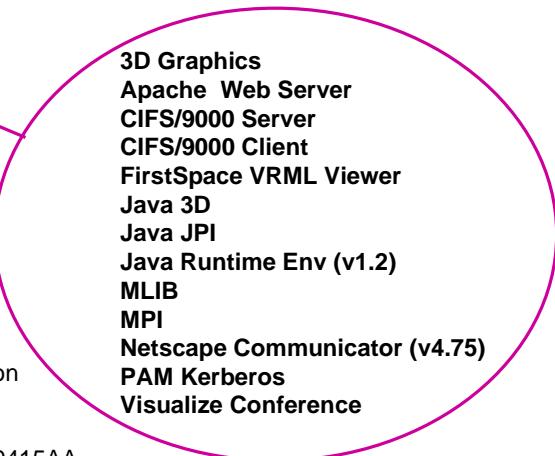

HP-UX 11i Core Functionality  
HPUXBase64 (64-bit)  
HPUXBase32 (32-bit)

- Three operating environments are available for HP9000 Commercial Servers:
  - Mission Critical
  - Enterprise
  - 11i
- Each higher OE is a superset of the OE that precedes it

# getting to know hp-ux operating environments

- The shown grouping of software contains the applications that comprise the HPUX11i-TCOE software bundle
- The HPUX11i-TCOE software bundle is installed with the Minimum OE Install selection (optional, HP-recommended)
- The entire software contents (product.filesets) of the products shown to the right are wholly contained within the HPUX11i-TCOE bundle

3D Graphics  
Apache Web Server  
CIFS/9000 Server  
CIFS/9000 Client  
FirstSpace VRML Viewer  
Java 3D  
Java JPI  
Java Runtime Env (v1.2)  
MLIB  
MPI  
Netscape Communicator (v4.75)  
PAM Kerberos  
Visualize Conference

- Applications in the TCOE bundle are individually available on the 11i Application Release media:
  - 3D Graphics, product B6258AA
  - Apache Web Server, product B9415AA
  - CIFS/9000 Server, product B8725AA
  - CIFS/9000 Client, product B8724AA
  - FirstSpace VRML Viewer, product B5304AA
  - Java 3D, product B8752AA
  - Java JPI, product B9098AA
  - Java Runtime Env, product B8111AA
  - MLIB, product B6061AA
  - MPI, product B6060BA
  - NS Communicator, product B8342AA
  - PAM Kerberos, product J5849AA
  - Visualize Conference, product B7580AA
- Applications in the TCOE bundle do not need to be listed separately on the sales order or support contract

Always-Installed NW Drivers  
Gigabit Ethernet (PCI, HSC)  
FDDI (PCI)  
FibreChannel [Tachlite] (PCI)  
SCSI RAID (PCI)

Contents of HPUXBaseAux  
DMI&SCR  
EMS Framework  
ObAM5  
Partition Manager  
Software Distributor

HP-UX 11i Core Functionality

# software deployment a la carte

before operating environments releases (11.00 and prior)

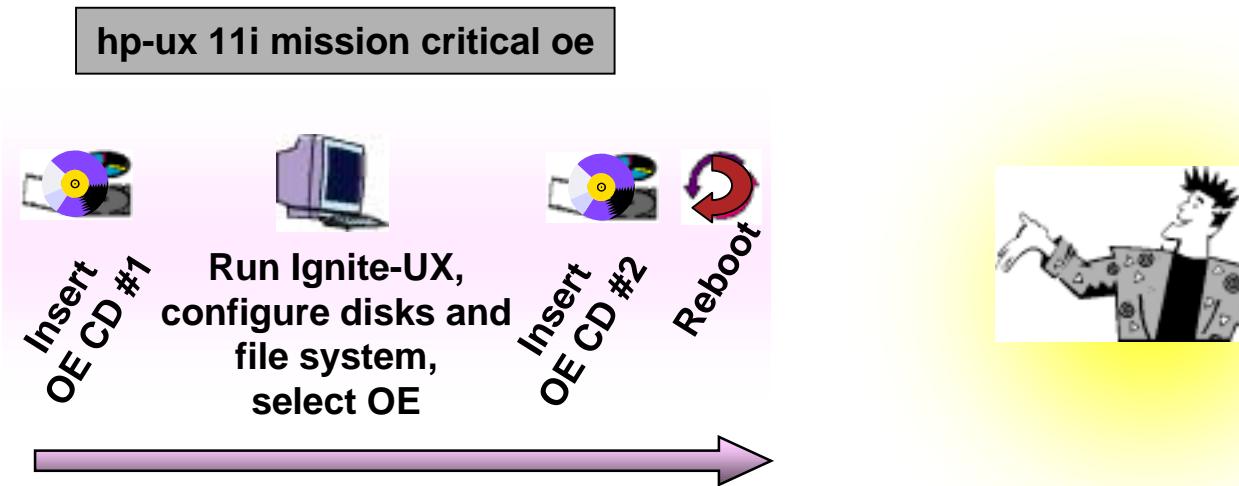

Too many CD-ROMs, code words, and reboots

Copyright ©Hewlett-Packard Company 2000

# software deployment with operating environments on 11i

*Mission Critical OE Install Time Reduced by 50%*

- *Comprehensive list of drivers available during cold install*
- *New media structure (see media structure slides for details)*
- *Reduced number of CD-ROMs required during installation*
- *Just one reboot to install all OE software!*
- *Online Diagnostics loaded during cold install*
- *Nuisance messages greatly reduced*
- *Integrated OE Documentation, Release Notes, Read Me First*
- *Significantly improved update experience with new Update-UX*

# hp-ux 11i operating environments simplifying sales orders, support contracts

One example using the Mission Critical OE; note the vast reduction in the number of individually listed line items.

# 11i media solution

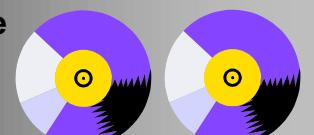

## operating environment media

- Release stream specific (B.11.11)
- Global Solution (no localized media)
- 1st CD-ROMs differ primarily by LIF header (OE-specific configuration files and menus for unique 2nd CD-ROMs)

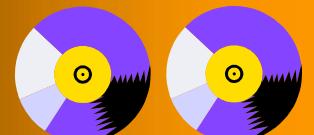

11i Mission  
Critical OE  
Commercial  
Servers

11i Enterprise  
OE  
Commercial  
Servers

11i OE  
Commercial  
Servers

11i Technical  
Computing OE  
Technical Servers  
and Workstations

## application media

- Release stream specific (B.11.11) for Servers and Workstations
- Number of CD-ROMs varies by stream (a function of the number of applications available on that stream)
- AR (enterprise release or quarterly)

## instant info

- Release stream specific (11.11)
- Both Servers and Workstations

## support plus

- Release stream specific (B.11.11)
- Both Servers and Workstations
- HW Critical Bundle
- Diagnostics
- Network Driver patches
- Application Patches

# hp-ux operating environment media information (page 1/2)

---

- LIF Header is unique on each OE 1st CD-ROM
- OE Bundles:
  - 11i SW Grouping = HPUX11i-OE bundle
  - 11i SW Grouping + Enterprise SW Grouping = HPUX11i-OE-Ent Bundle
  - 11i SW Grouping + Enterprise SW Grouping + Mission Critical SW Grouping = HPUX11i-OE-MC Bundle
- Ignite-UX space calculations may overstate size requirements due to the way that CDE is split (many product.filesets are redundant between the CDE bundles)
- A minimum of 4GB disk is required to install an Operating Environment
- A minimum of 128MB RAM is required to install 11i; however, 256MB is recommended (especially for full Enterprise and Mission Critical OE installations).
- Online Diagnostics are always installed. iCOD (instant capacity on demand) is Customer Selectable. Online Diagnostics will appear on the SupportPlus media, which will also include SCAN tools. SCAN tools will not be on OE media.
- All factory ignited systems will be loaded with the Minimum OE Install (that correlates to the highest media product purchased)
- There is no easy way to select individual products within OE bundles to load or remove; this ability is under review
- Both OE CD-ROMs (for any given OE) are required for any installation or update.

# hp-ux operating environment media information (page 2/2)

---

- It is a manual process to 'downgrade OEs'
- Commercial Server OEs are not supported on Technical Systems; Technical Computing OE is supported on ALL systems
- OE bundles are integrated with the product.filesets contained within each Application product exactly as those individual products are available.

Technical Computing Software Grouping

# per processor licensing concept

## concept

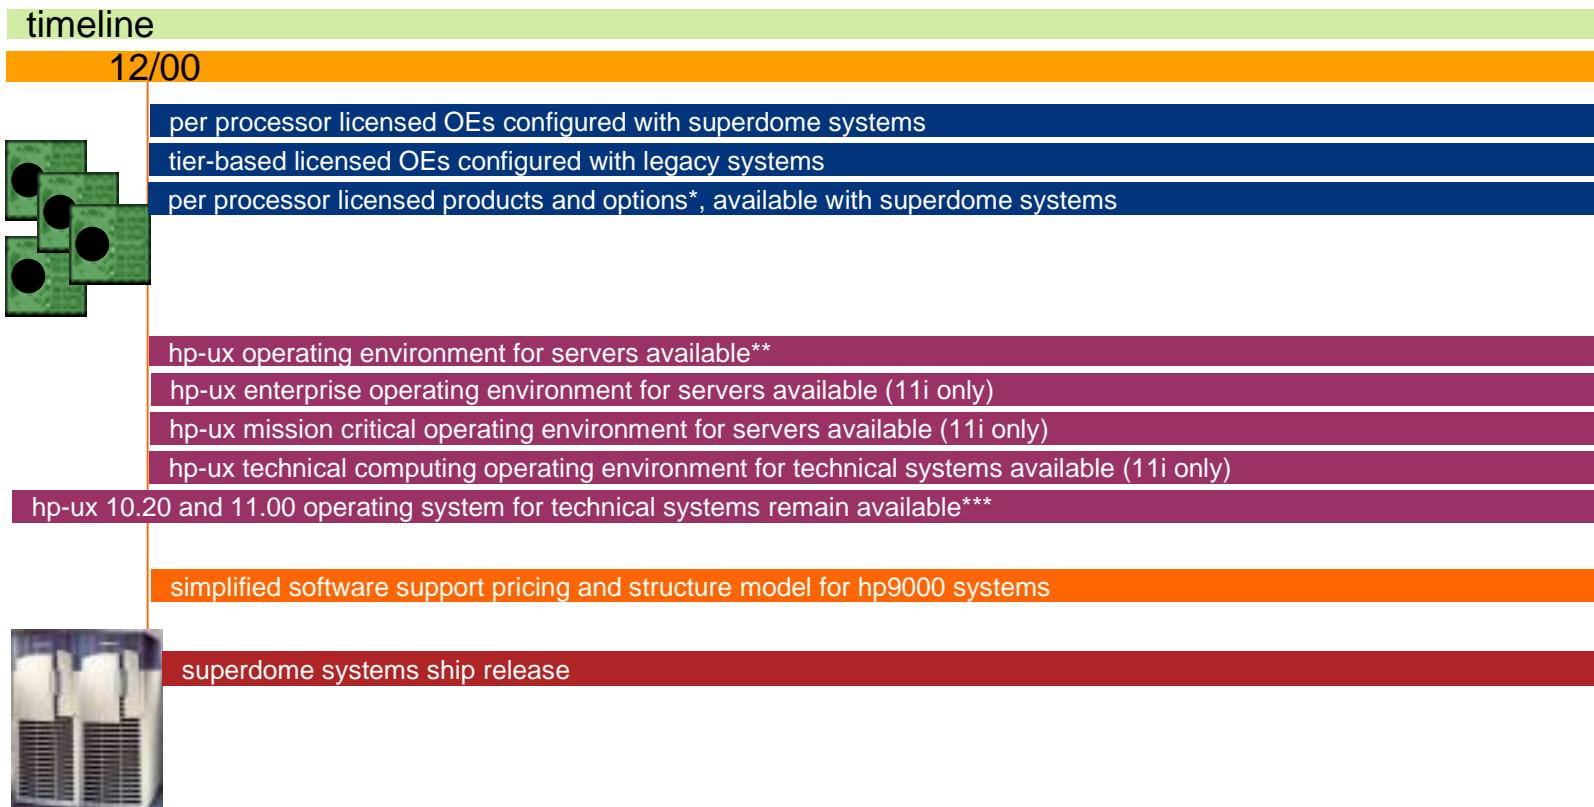

- Software licensing is based upon the number of processors in a system
- Software licensing is independent of the number of copies being used
- Software licensing/pricing is independent of the processor's performance rating -- all processors are licensed equally
- Per Processor Licensing available 12/01/00 coincident with the introduction of Superdome Systems and HP-UX Operating Environments (PPL available only on Superdome systems at this time)

### **why processor based licensing is the best solution:**

- Supports dynamic software re-configure on a Superdome
- Supports heterogeneous operating systems on an IA-64 based Superdome
- Better enables enterprise licensing, server consolidation, metered usage, and virtual environment than the per-copy or per-box alternatives
- Best potential for software product CPL, sales order, and software contract simplification

# per processor licensing timeline

\*Select applications only; see the "per processor licensing overview, rules, available applications" slide for details.

\*\*HP-UX 10.20 and 11.00 for Servers remain available; use B9088AA (LTU w/system purchase) or B9089AA (LTU w/o system purchase) with appropriate options, B3920EA media, and existing documentation products. Unlimited User Level License (UUL) now included with all HP-UX 10.20/11.00 OE LTUs, and UUL is installed on all factory integrated ("ignited") 10.20/11.00 Servers.

\*\*\*HP-UX 10.20 and 11.00 for Workstations remain available; use B6837AA (LTU), B3782FA media, and existing documentation products. Unlimited User Level license installed on all factory integrated ("ignited") HP-UX 10.20/11.00 Workstations.

As of 12/01/00, User-Level Licenses for HP-UX are discontinued (B3919EA and B3884FA).

Copyright ©Hewlett-Packard Company 2000

# per processor licensing

## overview, rules, available applications

### overview

- ppl available 12/01/00
- ppl available for Superdome systems only
- All ppl-based license product numbers have 'C' as the final character in their product # or a 2AH option in Active status

### rules

- For PPL-based license products (BxxxxAC), order qty 1 license product per qty 1 active processor/iCOD processor\* in the system configuration
- For PPL-based license products with 2AH option, order qty 1 2AH option per qty 1 active processor/iCOD processor\* in the system configuration

### operating environments (available 12/01/00)

Product#	Description	Qty	Price Break	Available
B9088AC	HP-UX OE LTU 1 CPU (w/system)	Y		
B9089AC	HP-UX OE LTU 1 CPU (w/o system)	Y		
B9090AC	HP-UX Enterprise OE LTU 1 CPU (w/system)	Y		
B9091AC	HP-UX Enterprise OE LTU 1 CPU (w/o system)	Y		
B9092AC	HP-UX Mission Critical OE LTU 1 CPU (w/system)	Y		
B9093AC	HP-UX Mission Critical OE LTU 1 CPU (w/o system)	Y		
B6822AC	HP-UX TCOE LTU 1 CPU (w/system)	Y		
B6823AC	HP-UX TC OE LTU 1 CPU (w/o system)	Y		

### per-processor license based applications (available 12/01/00)

Product#	Option	Description	OE License	Qty	Price Break	Available
B2491BA	2AH	MirrorDisk/UX	EOE/MCOE	Y		
B3394BA	2AH	HP-UX Developer's Toolkit LTU Server	N/A	N		
B3835DA	2AH	Process Resource Manager	EOE, MCOE	Y		
B3901BA	2AH	HP C/ANSI C Developer Bundle Server LTU	N/A	N		
B3929CA	2AH	Online JFS (v3.3)	EOE/MCOE	Y		
B3935DA	2AH	MC/ServiceGuard	MCOE	Y		
B5161EA	2AH	ServiceGuard OPS Ed. LTU for HP-UX 11.x	N/A	N		
B8843CA	2AH	Workload Manager	MCOE	Y		

\*At a minimum, the customer is required to purchase ppl-based software licenses equal to the number of active processors. Override permitted if customer chooses to purchase licenses only for active (non-iCOD) processors.

B2355GJ HP-UX 11i Japanese manuals

what the customer  
sees on CD-ROM media

**Important Notes regarding HP-UX 11i Technical Computing OE Media**

Although the two CD-ROMs are "global" and contain all localization choices, there remain 5 different localized kits due to hardcopy documentation (ABA - English/European, ABJ - Japanese, AB1 - Korean, AB0 - Chinese (Taiwan), and AB2 - Chinese).

OE CD-ROM #1 contains: Base O/S, Network Drivers, and Ignite-UX.

OE CD-ROM #2 contains: HPUX11i-TCOE Bundle, CDE, Online Diagnostics, and Customer Selectable Software.

Neither OE CD-ROM requires a codeword to access included software.

## network drivers and mass storage (page 1/2)

### 100Base-T for EISA Bus

11i Bundle Name

**100BaseT-00**

Associated 10.20/11.00 HW and SW Products

A4308B, J2780BA

### 100Base-T for HP-PB Bus

11i Bundle Name

**100BaseT-01**

Associated 10.20/11.00 HW and SW Products

A3495A, J2759BA

### ATM for PCI Bus

11i Bundle Name

**ATM-00**

Associated 10.20/11.00 HW and SW Products

A5483A, A5513A, A5515A, J3557A, J3572BA

### ATM for HSC and EISA Buses

11i Bundle Name

**ATM-01**

Associated 10.20/11.00 HW and SW Products

J2468A, J2469A, J2499A, J3420B, J3573A, J2806CA

### FDDI for PCI Bus

11i Bundle Name

**FDDI-00**

Associated 10.20/11.00 HW and SW Products

A3739B, J3626AA

### FDDI for HSC Bus

11i Bundle Name

**FDDI-01**

Associated 10.20/11.00 HW and SW Products

A3723A, A3722A, J3629BA, J3701BA

### FDDI for HP-PB Bus

11i Bundle Name

**FDDI-02**

Associated 10.20/11.00 HW and SW Products

J2157B, J2658BA

### FDDI for EISA Bus

11i Bundle Name

**FDDI-03**

Associated 10.20/11.00 HW and SW Products

A3659A, B5502BA, J2647BA

### FibreChannel (TachLite) for PCI Bus

11i Bundle Name

**FibrChani-00**

Associated 11.00 HW Product

A5158A

### Gigabit Ethernet for PCI and HSC Buses

11i Bundle Name

**GigEther-00**

Associated 10.20/11.00 HW and SW Products

A4924A, A4925A, A4926A, A4929A, J1642AA

# hp-ux 11i operating environments

## network drivers and mass storage (page 2/2)

### HyperFabric for PCI and HSC Buses

11i Bundle Name  
**HyprFabrc-00**  
Associated 10.20/11.00 HW and SW Products  
A4919A, A4920A, A4921A, A6092A, B6257AA

### SCSI RAID for PCI Bus

11i Bundle Name  
**RAID-00**  
Associated 11.00 HW Product  
A5856A

### MUX for PCI Bus

11i Bundle Name  
**TermIO-00**  
Associated 10.20/11.00 HW and SW Products  
J3592A, J3593A, J3596A

### MUX for EISA Bus

11i Bundle Name  
**TermIO-01**  
Associated 10.20/11.00 HW and SW Products  
J2482A, J2483A, J2467C

### TokenRing for PCI Bus

11i Bundle Name  
**TokenRing-00**  
Associated 10.20/11.00 HW and SW Products  
A5783A, J1644AA

### TokenRing for HP-PB Bus

11i Bundle Name  
**TokenRing-01**  
Associated 10.20/11.00 HW and SW Products  
J2166B, J2250B

### TokenRing for EISA Bus

11i Bundle Name  
**TokenRing-02**  
Associated 10.20/11.00 HW and SW Products  
J2165B

### Drivers included in Base HP-UX

**10Base-T for all supported buses**  
*Included in HPUXBase64 and HPUXBase32*

**10/100Base-T for PCI and HSC Buses**  
*Included in HPUXBase64 and HPUXBase32*  
Supports A3738A, A5230A, A5506A, B5509BA,  
A5838A, J4253AA, J4254AA, J3620BA, J3623BA,  
J3514A, J3515A, J3516A, J3850A

**FibreChannel (Tachyon) for HSC Bus**  
*Included in HPUXBase64 and HPUXBase32*

**SCSI**  
*Included in HPUXBase64 and HPUXBase32*

# Mapping Sample

- Mapping will be given for each OE bundle such that customers can identify individual applications' product.fileset content
- **This highly customized, customer-specific method of installation or removal of OE bundle components is not guaranteed to meet all required software dependencies**

```

## glossary of terms

**Operating Environment (OE)** An integrated and tested software solution containing HP-UX operating system software and selected applications that are marketed and supported via OE-specific license and media product(s)

**HP-UX 11i Mission Critical OE** An Operating Environment marketed and supported only for Commercial Servers containing HPUXBase, HPUXBaseAux Bundle, Mission Critical Software Bundle, Always-Installed Network Drivers, Customer Selectable Software

**HP-UX 11i Enterprise OE** An Operating Environment marketed and supported only for Commercial Servers containing HPUXBase, HPUXBaseAux Bundle, Enterprise Software Bundle, Always-Installed Network Drivers, Customer Selectable Software

**HP-UX 11i OE** An Operating Environment marketed and supported only for Commercial Servers containing HPUXBase, HPUXBaseAux Bundle, 11i Software Bundle, Always-Installed Network Drivers, Customer Selectable Software

## glossary of terms

[HP-UX 11i Technical Computing OE](#) An Operating Environment marketed and supported on Technical Computing Servers and Workstations containing HPUXBase, HPUXBaseAux Bundle, Technical Computing Software Bundle, Always-Installed Network Drivers, Customer Selectable Software

[Internet Grouping](#) Group of applications that comprise the definitive list of what is in the 11i OE (Commercial Servers only); this term synonymous with “11i Software Bundle”

[Enterprise Grouping](#) Group of applications that comprise the definitive list of what is in the Enterprise OE (Commercial Servers only)

[Mission Critical Grouping](#) Group of applications that comprise the definitive list of what is in the Mission Critical OE (Commercial Servers only)

[11i Software Bundle](#) A bundle of product.filesets that comprise the applications included in the 11i Grouping; this term synonymous with “11i Software Grouping”. SD Bundle Tag: HPUX11i-OE

## glossary of terms

[Enterprise Software Bundle](#) A bundle of product.filesets that comprise the applications included in the 11i and Enterprise Groupings

SD Bundle Tag: HPUX11i-OE-Ent

[Mission Critical Software Bundle](#) A bundle of product.filesets that comprise the applications included in the 11i, Enterprise, and Mission Critical Groupings. SD Bundle Tag: HPUX11i-OE-MC

[Tech Computing Software Bundle](#) A bundle of product.filesets for the Technical Computing OE. SD Bundle Tag: HPUX11i-TCOE

[HPUXBase](#) Base HP-UX “core” operating system software that includes, at a minimum, 32 and 64 bit versions of the kernel and the LIF header. Relevant SD Bundle Tags: HPUXBase64 HPUXBase32

[HPUXBaseAux Bundle](#) A bundle that contains software components and Applications that complement functionality in HPUXBase and will always be loaded onto systems during cold install and factory ignition process.

[Base OS Install](#) Install of a combination of HPUXBase, HPUXBaseAux, Always-Installed Network Drivers, ACE Patch Bundle, and CDE (English only for Commercial Servers, all localized CDE bundles for Technical Systems)

## glossary of terms

**Minimum OE Install** Install of a combination of HPUXBase64 or HPUXBase32 (dependent upon HW), HPUXBaseAux, Always-Installed Network Drivers, CDE (English only for Commercial Servers, All for Technical Systems), and the highest content OE Software Bundle designated by the IUX Menu Selector.

**1st CD-ROM** CD-ROM that contains, at a minimum, HPUXBase64, HPUXBase 32, HPUXBaseAux, and Always-Installed Network Drivers.

**2nd CD-ROM** CD-ROM that contains, at a minimum, CDE and the OE Software Bundle.

**Customer Selectable** Referring to the install process, applications optionally selected and loaded by the customer

**Always-Installed NW Drivers** Network Drivers that are always installed during the cold install and factory ignition processes.
