Introduction

- vPars opens many configuration possibilities
  - Not all are supported
  - Some, though supported may not be good ideas

- What will we cover?
  - What to do and what not to do when configuring systems for vPars
  - Configuration case studies
  - How to assess vPars performance and do tuning

How to Obtain this Presentation

- As of late-July, I'm still working on it! ☺
  - Latest release (A.02) just came out… lots of good information still coming in
- If you want a copy, email me, and I'll be happy to send one
